EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 17 and 18 have been cancelled as per being drawn to a non-elected group invention. The election was made without traverse in the reply filed June 27, 2005.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The presently claimed "consisting essentially of" limitation serves to patentably distinguish the claimed subject matter from that disclosed by Yonehama et al. Applicants have shown that the presence of the lowest amount of diamine required by Yonehama et al, i.e., the main polyamine component, would materially affect the basic and novel characteristics of the claimed composition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
